

Certificate of California Proposition 65 Compliance

Proposition 65, officially known as the California Safe Drinking Water and Toxic Enforcement Act of 1986, aims to protect California citizens from significant exposure to chemicals known to cause cancer, birth defects, or reproductive harm. California Proposition 65 obligates businesses operating in California to provide clear and reasonable warnings before knowingly and intentionally exposing Californians to chemicals that are listed in Proposition 65 List.

This Certificate of Compliance certifies that to the best of our current knowledge under normal and intended usage, Superior Sensor Technology's products comply with California Proposition 65 (The Safe Drinking Water and Toxic Enforcement Act, 1986). Although some of our products contain Proposition 65 substances, there is no exposure route, such as contact with skin, being ingested with drink or food, or inhalation in the normal or foreseeable uses intended. Superior Sensor Technology products contain No Significant Risk Levels (NSRLs) for cancer-causing chemicals and are below the Maximum Allowable Dose Levels (MADLs) for chemicals causing reproductive toxicity. Therefore, a warning label that our product(s) contain or can expose you to compounds that may cause cancer, birth defects, or reproductive harm is not required.

WARNING: During destructive decomposition, our products may contain and release trace amounts of lead (Pb), Arsenic (As), Beryllium (Be), Nickel (Ni), Antimony Trioxide (Sb₂O₃), and other California Proposition 65 substances known to the state of California to cause cancer and/or birth defects or other reproductive harm. To reduce risk of exposure, work with approved safety equipment in a well-ventilated area, wear dust masks that are specially designed to filter out microscopic particles, wear protective gloves and wash hands after handling. For more information go to [Prop 65 Warnings](#).

All information provided in this Certificate of Compliance is accurate, to the best of our knowledge, as of the date this certification was issued. For additional inquiries, please visit our Corporate Responsibility page or contact your local Superior Sensor Technology sales representative.
